

## Hydrant Flushing Beginning Monday August 21, 2023

Please note: Beginning August 21, 2023, Hydrant Flushing will start and will continue through August until completed.

As this procedure may cause temporary discoloration of the water supply, customers are advised to let their water run a short period until it is clear before using it for drinking, cooking and laundry.

As this may also cause a slight reduction in water pressure, buildings with alarms on their fire systems should notify their alarm companies prior to this time.

*We apologize for any inconvenience.*
