

Sarnia Saves: For Residential customers

Enbridge Gas is introducing an enhanced energy conservation program designed to assist eligible homeowners in Sarnia, Brights Grove, and Point Edward in improving their home's comfort and energy efficiency. Eligible residential customers may receive up to \$15,000 in instant rebates when working with an approved contractor for various home upgrades, including complimentary home energy assessments, free insulation, free draft proofing, and free electric heat pumps. Additional rebates are available for items such as windows and doors, heat pump water heaters, and other qualifying improvements.

Eligible homeowners may choose to upgrade multiple areas of their property, focus solely on attic insulation, or transition to an electric heat pump at no cost when working with an approved contractor. More upgrades mean greater energy efficiency. This pilot program is available for a limited time – until December 2026 or until program funding runs out.

This exclusive, limited-time offer is available to homeowners residing in Sarnia, Brights Grove, and Point Edward within postal codes N7S, N7T, N7V, N7W, N7X, and N0N 1C0, specifically north of Hwy 25 and west of Hwy 26.

Visit enbridgegas.com/sarniasaves and complete a short online form to express interest. Our delivery agent The Home Inspectors Group will follow up to confirm eligibility and guide you through the next steps.

Sarnia Saves: For Business customers

Eligible business owners in Sarnia, Brights Grove, and Point Edward may qualify for up front incentives covering full equipment and installation costs up to \$100,000 for a pre-select set of energy efficiency measures, such as air curtains for doors, energy and heat recovery ventilation systems, and destratification fans. Large commercial or industrial businesses that use complex natural gas equipment may be eligible for higher incentive amounts of up to \$500,000 for custom energy-efficient upgrades based on natural gas savings and an incentive rate of \$2.00/m³ of gas saved. Custom projects include building automation systems, ventilation equipment, control upgrades, heat recovery, and other related improvements.

Energy Solutions Advisors from Enbridge Gas or the program delivery agent CLEAResult will assist businesses through assessment, planning, and installation phases. This pilot program is available for a limited time – until December 2026 or until program funding runs out.

This limited-time offer is available exclusively to eligible businesses located in Sarnia, Brights Grove, and Point Edward with postal codes N7S, N7T, N7V, N7W, N7X, and N0N 1C0, specifically north of Hwy 25 and west of Hwy 26.

For additional details, visit enbridgegas.com/sarniasaves/business and complete the online form to express interest. An Energy Solutions Advisor or the program delivery agent CLEAResult will contact interested applicants to provide guidance on the next steps.
