

Southbound lane on Monk Street (from Michigan Avenue to Alexandra Avenue) will be closed tomorrow (March 30) from 8:00 a.m. to 7:00 p.m. as a trial to direct traffic for the vaccination clinic. There WILL be access for emergency vehicles to go around the barriers if needed. We will be observing driver behavior to gauge whether this will be an effective long-term solution for the summer for the clinic.

More updates will follow regarding any closures beyond March 30<sup>th</sup>.
